

Create your Username and Password on EPS SURA in 6 Steps

1

Visit our website on

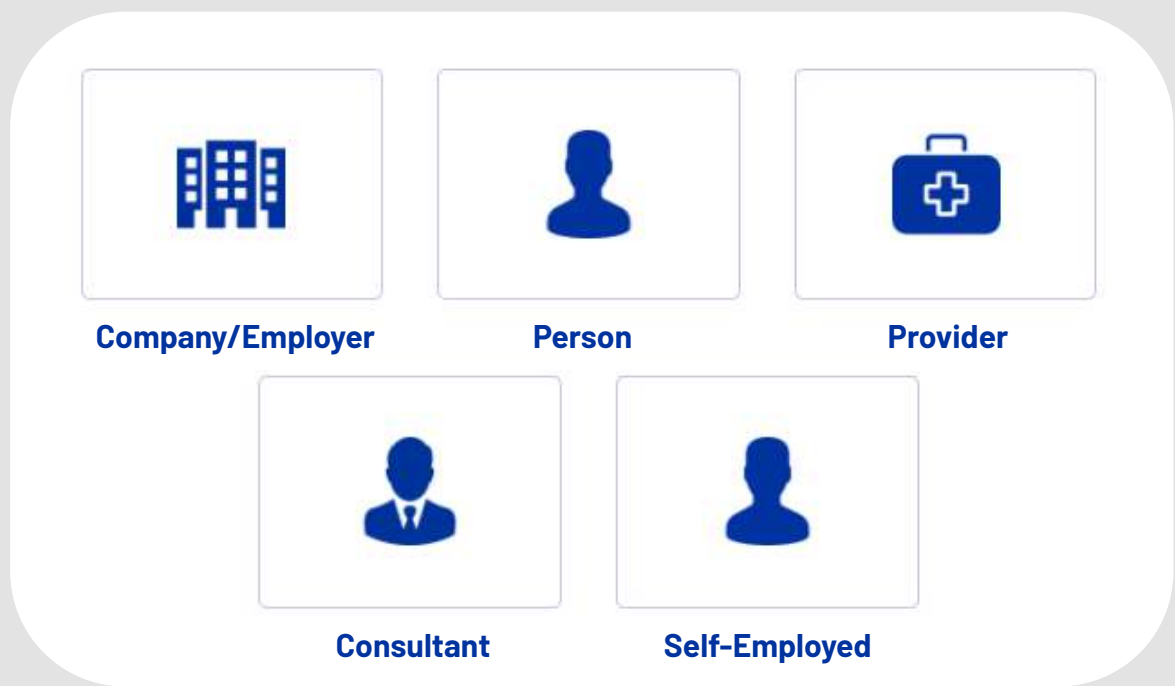

2

Click on the option **Solicitud de clave** (Password Request), located on the top left corner of the screen.

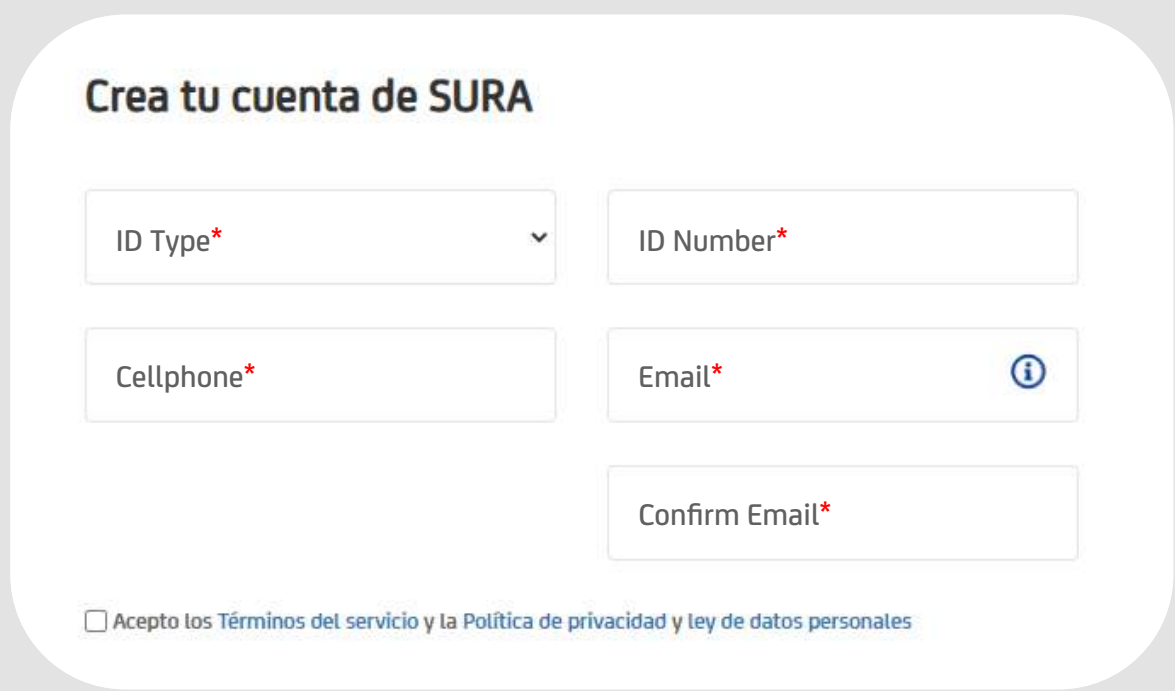

3

Choose the relationship you have with us.

4

Next, enter the information requested by the system.

5

After completing the process, the system will validate your information

6

You will receive an email that allows you to create your access password. On the same message, you can read the benefits of creating a user account with us.

Remember, this process can also be done through the **Seguros SURA App**.
